FUTURE OF
SUPPLY CHAIN
October 7, 2027
Four Seasons George V, Paris

THE CONCEPT

Future of Supply Chain is a benchmark evening dedicated to supply chain innovation for large companies and mid-caps

OBJECTIVES

- Showcase the key supply chain innovations: digitalisation, IoT, real-time data, AI, automation
- Feed the strategic thinking of supply chain leaders on volatility, decarbonisation and overall performance
- Foster peer-to-peer exchanges on levers that work in international, multi-site, multi-supplier environments

BENEFITS FOR SOLUTION PROVIDERS

- Position your company as a strategic supply chain transformation player with key decision makers
- Shape supply chain roadmaps before platform choices and budget decisions are made
- Get first-hand insight into operational priorities
- Build lasting relationships with a community of supply chain decision makers in a trusted setting
